# FRUITS, TREES AND FLOWERS 

FALL 1935

Evergreens add winter beauty to the planting

## PLANT THIS FALL

Experience has shown there is a big advantage in fall planting of almost all varieties of hardy trees, shrubs and flowers. The earth becomes settled about the roots, new feeding rootlets are formed before severely cold weather, and they are ready to start into growth with the first coming of spring. In the fall the assortment is most complete, and the work is out of the way before the spring rush begins.

Planting of Peonies and Irises may begin in early September, other Hardy Flowers and Evergreens usually latter September or early October, Shade Trees and Shrubs when we have good frosts that start the leaves dropping naturally. Strawberries, Cannas, Dahlias and Gladiolus will be quoted in the spring catalog.

| INDEX |  |  |  |

5 to 6 feet --.-. . 50 each; 4.50 per 10; 40.00 per 100
Wayfaring Tree (Viburnum lantana). An upright tree-like shrub; small white flowers in clusters 2 to 3 in. across in latter spring; bright red berries changing to black.
2 to 3 feet
3 to 4 feet

## HARDY FLOWERING SHRUBS, continued

Weigela. Very showy in latter May or early June with its trumpet-shaped flowers, clustered thickly along the wide spreading branches; attains f - S ft . Light Pink, Rose and light pink with variegated foliage.

Weigela Eva Rathke. Brilliant carmine-red; grows about 4 ft. high; will grow in partial shade.

```
18 to 24 inches
. }35\mathrm{ each; 3.00 per 10
2 to 3 feet
.40 each; 3.50 per 10
```

Witch-Hazel, Vernalis. Odd flowers with 4 narrow petals $1 / 2$ to $5 / 8$ in. long in Jan. to Mar.; light yellow, of ten red toward base; fragrant. 3 to $4 \mathrm{ft} ., 60 \mathrm{c}$ each.

## Privet for Hedging

Plant $10-12 \mathrm{in}$. apart. Prume to $4-6 \mathrm{in}$. to make them branch low and thickly.

Amoor River North. Growth rapid; upright habit; rery hardy.

## Hardy Vines

When planting cut the tops back severely. particularly clinging vines such as Euonymus radicans and Boston and English Ivy, as it is the new growth which clings. Twining vines must have a support they can twine around. If the soil near the foundation is poor, replace with good soil.

5 or more at the 10 rate, less at the each rate.
Bittersweet, American. Orange-yellow seed pods with bright red seed in autumn, clustered at the end instead of all along the branches. 2 yr., 30 c each, $\$ 2.50$ per 10 ; Mail size, postpaid. 15 c each.

Bittersweet, Oriental. A high climbing vine; in autumn the orange-yellow seed pods reveal bright red seed; thrives in sun or partial shade. 1. year, 30c each; Mail size, postpaid 15c each.

Boston Ivy; Ampelopsis Veitchi. A graceful vine clinging to wood, brick or stone, 2 year 350 each, $\$ 3.00$ per 10 ; Mail size, postpaid, 20 c each.

Clematis paniculata; Japanese Clematis. Thousands of fragrant pure white four-petaled starry flowers $1-1 \frac{1}{2} \mathrm{in}$. across, in Aug. and Sept. 2 year, 40 c each, $\$ 3.50$ per 10.

English lvy. Evergreen, wax-like dark green, 3-5 lobed leaves; best in shade and for northern exposures. 2 year 35 c each,

Euonymus radicans colorata. Small, dark green, glossy waxlike leaves, in autumn bronzy red. 2 yr.. 30 c each, $\$ 2.50$ per 10 ; Mail size, postpaid 15 c each, $\$ 1.40$ per 10.

Honeysuckle, Yellow (Flava). Bright orange-yellow flowers 1 to $11 / 2$ in. long in custers at the tips of the branches in latter April or early May; fragrant. 2 vear, 50 c each.

Honeysuckle, Hall Japanese. Almost evergreen; deliciously fragrant white flowers becoming yellow, in summer; a twining vine.. 2 year No. 1, 35c each, $\$ 3.00$ per 10; Mail size, postpaid, 20 c each, $\$ 1.50$ per 10.

Honeysuckle, Heckrotti. A constant blooming. compact vine; flowers in clusters, deep rose, yellow inside. Mail size, postpaid, 25 c each.

Wisteria, American Purple. A tall, rapid climber: numerous drooping clusters of lavender-purple pea-shaped flowers. More compact clusters than Chinese. 1 year. 25 c each.

## Shade Trees

Five or more of a kind at the 10 rate, less at the each rate.
Albizzia Julibrissin; Mimosa Tree. Spreading branches; small feathery foliage: pink Acacia-like flowers in summer.
Mail size, postpaid
3 to 4 teet
4 to 5 feet
6 to 8 feet
8 to 10 feet

Crab, Scheideckeri. Covered with semi-double flowers, deep pink on a white ground, in latter April, followed by tiny crabs; very shows; upright habit, growing about 8 ft . high.
3 to 4 feet
Dogwood, Red Flowering. Flowers like the White Flowering Dogwood but a decided pink, often called red: rare: fine.
18 to 24 inches
2 to 3 feet
3 to 4 feet

Dogwood, White Flowering. In latter April, before the leaves develop, it is covered with showy 4-petaled white flowers 3 to 4 in. across; red berries in Sept. 3 to 4 ft ., $\$ 1.00$ each.

Elm, American White. The well known native Elm.
6 to 8 feet
.70 each; 6.00 per 10
8 to 10 feet
1.00 each; 9.00 per 10
10 to 12 feet
1.50 each; 12.50 per 10

Elm, Chinese; Ulmus pumila. A rapid grower; slender branches; leaves much smaller than those of the American Elm.
Mail size, postpaid, 18 to 24 in . ---- $\$ 0.20$ each; $\$ 1.80$ per 10
4 to 6 feet -------------------------. 40 each; 3.50 per 10

8 to 10 feet --------------------------1. 1.50 each; 12.50 per 10
10 to 12 feet ------------------------1.75 each; 15.00 per 10
12 to 15 feet ------------------------3.50 each; 30.00 per 10
Elm, Moline. Erect habit, producing an effect somewhat similar to Lombardy Poplar though not so slender.
6 to 8 feet
$\$ 1.00$ each; $\$ 8.00$ per 10

10 to 12 feet
Gum, Sweet. Leaves 5-7-lobed, star shaped, bright shiny green, autumn color usually crimson.
6 to 8 feet, B. \& B. $\$ 3.00$ each;
8 to 10 feet, B. \& B.
Maple, Sugar, Rock or Hard. Deeply rooted, allowing grass to grow about the trunk; beautiful autumn foliage.
6 to 8 feet

Oak, Pin. One of the most beautiful and rapid growing Oaks.
6 to 8 feet. B. \& B.
8 to 10 feet, B. \& B.
Poplar, Bolle's Silver. Columnar habit, similar to Lombardy but the leaves dark glossy green above downy-white beneath.
4 to 5 feet
5 to 6 feet
6 to 8 feet
8 to 10 feet

Poplar, Lombardy. Tall and columnar; rapid growth; useful as an accent tree and to screen objectionable views.

Willow, Babylon Weeping. A large, graceful tree with long, slender, drooping branches; growth rapid.

Mail size, postpaid _-.............. $\$ 0.15$ each; $\$ 1.25$ per 10
3 to 4 feet .25 each; 2.00 per 10
Willow, Niobe Weeping. A graceful tree; slender. drooping rellow-barked branches; leaves lustrous green; very hardy.
Mail size, postpaid
$\$ 0.20$ each; $\$ 1.50$ per 10
3 to 4 feet
.30 each; 2.50 per 10

## Water Lilies all Summer

To have hardy Water Lilies blooming all summer, beginning in May. you need only a pool. 8-12 in. of soil, a foot of watel and sum. Prices 40 C up. Write for list of varieties.

## Hardy Evergreens

Pfitzer Juniper thrives in almost every location

#### Abstract

Our evergreens are grown with plenty of room and are compact, well filled trees of their size and variety. They have been transplanted and root pruned and are well rooted. They are not grown rapidly and soft but are firm and easily transplanted. They are liberally graded. With the exception of the "mail size" they will be dug with a ball of earth wrapped in burlap,

 termed "balled and burlapped" or B. \& B.
## MAIL SIZES, POSTPAID

Our mail size are transplanted, sturdy little trees, not balled and burlapped as these sizes do not require it. The value of trees cannot be shown in a catalog. A mail size evergreen may be worth a dime or a dollar. It may be a spindling little tree that requires petting, or a well grown tree that with reasonable care gives good results. We intend to give you your money's worth. Plant these mail sizes firmly, water them as the season requires and they should give you good results. They are not yet old enough and large enough to give the immediate effect of balled and burlapped sizes. Give them time to grow into larger sizes and we think they will please you. B. \&. B. trees cannot be sent by mail.

Five or more of a kind at the 10 rate, less at each rate.
Arborvitae, Baker's. An upright Chinese Arborvitae, growing about 8 ft . high; foliage light green; fairly rapid growth.

4 to 5 feet, B. \& B. -----------100 2.00 each; 17.50 per 10
Arborvitae, Berckmans; Chinese Golden Dwarf. Of superb, somewhat ovate form; dwarf; compact, slow growth, attaining 7 ft .; in spring gold suffused with green, in winter green to bronze green; a gem for both large and small grounds.

Mail size, ( 8 to 10 in. ), postpaid _-- $\$ 0.40$ each; $\$ 4.00$ per 10
18 to 24 inches, B. \& B. ................ 1.50 each; 12.50 per 10

3 to $31 / 2$ feet, B. \& B.
$31 / 2$ to 4 feet, B. \& B. 5.00 each; 45.00 per 10

Liberty Irises, assorted, our selection, named: Half dozen, 3 varieties, 50c (postpaid, 60c); one dozen, 6 varieties, $\$ 1.00$ (postpaid, $\$ 1.15$ ); twenty-flve, 8 varieties, $\$ 1.75$ (postpaid, $\$ 2.00$ ) ; one hundred, 8 varieties, $\$ 5.00$ (postpaid, $\$ 6.00$ ).

## Japanese Irises

Foliage tall, narrow. blade-lile; stems slender, graceful, with several buds to the stem: large flat flowers, usually with a gold blotch, blooming later than the Liberty Irises. Plant in full sun in any good mellow loam that does not become excessively dry; very effective along a stream or pool. Water must not stand on the roots. Six-petaled are termed double, three-petaled, single.

White. Early, double, 25c each, 3 for 70c, $\$ 2.50$ per doz.

## Peonies are Easily Grown

Hardy as the oak, Peonies are so easily grown that little need be said. Often, in neglected gardens, one sees large clumps that have flourished and bloomed for years. Yet they amply repay all attention given them. Ther thrive in almost any good, well drained soil, are best in full sun but succeed with shade part of the day. Plant 3 feet apart. The early rarieties usually begin blooming here about May 5 to $\delta$.

The name and date in parenthesis is the originator or introducer and date of introduction. The guards are the wide outer petals. The type of flower is designated as follows:

Crown. Wide center or crown petals with narrower, shorter petals forming a collar or ring between them and the guards.

Bomb. Center petals of uniform width but narrower than the guards and forming a globe within the guards.

Semi-rose. Flowers that would be classed as rose but for an accasional pollen bearing stamen.

Rose. Perfectly full, all petals wide, no stamens. The center petals may not be a wide as the guards but if quite distinct it would be a bomb.

## PEONY SIZES AND PRICES

Prices quoted are for good strong divisions of 3 to 5 eyes from blooming plants. We consider them fully equal to oneyear plants usually sent out. If you want something larger order 5 to $\delta$ eyes at fifty per cent advance or $S$ to 10 eyes at double the printed price. 3 of a kind at dozen rates.

## PEONIES BY PARCEL POST

If wanted by parcel post allow $8 c$ for the first plant and $2 c$ for each additional plant if within 150 miles of Sarcoxie. For the balance of Missouri and adjoining states 10 c for the first plant and 3c for each additional plant. For more distant states 15c for the first plant and 8c for each additional plant. Any bialance will be refunded.

## PENNANT MIXED PEONIES

If you want something good at a moderate price and are not particular what varieties and colors, just so they are nice, order Pennant Mixed. This is not a cheap lot of undesirable varieties, but a really good mixture of named Peonies, the leading commercial varieties predominating. Do not ask for certain colors of these as they are grown mixed. 25c each, $\$ 2.00$ per doz.; 50 or more at 16 c each.
